SIMPLE, DIRECT, TO THE POINTS.

cbanc Points are the currency of the cbanc Network. The system is very simple: Members earn points by posting content, such as policies, procedures, vendor reviews, answers to questions, or hot topics from a recent exam; by referring colleagues to the network; and by participating in the Getting Started program. The more content, experiences, and advice you share, the more points you earn towards the purchase of the information you need.
